5. “Code of Ordinances” means the Code of Ordinances of the City of Fontanelle, Iowa.
6. “Council” means the city council of Fontanelle, Iowa.
7. “County” means Adair County, Iowa.

Words that are not defined in this Code of Ordinances or by the *Code of Iowa* have their ordinary meaning unless such construction would be inconsistent with the manifest intent of the Council, or repugnant to the context of the provision.

1.03 CITY POWERS. The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly, or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees, or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents, and employees, and agrees to save them harmless from any and all claims, demands, lawsuits, or liability whatsoever for any loss, damage, injury, or death, including all costs and expenses incident thereto, by reason of the foregoing. The provisions of this section shall be deemed to be a part of any permit or license issued under this Code of Ordinances or any other ordinance of the City, whether expressly recited therein or not.

1.05 PERSONAL INJURIES. When action is brought against the City for personal injuries alleged to have been caused by its negligence, the City may notify in writing any person by whose negligence it claims the injury was caused. The notice shall state the pendency of the action, the name of the plaintiff, the name and location of the court where the action is pending, a brief statement of the alleged facts from which the cause arose, that the City believes that the person notified is liable to it for any judgment rendered against the City, and asking the person to appear and defend. A judgment obtained in the suit is conclusive in any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or

damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

(Code of Iowa, Sec. 364.14)

1.06 RULES OF CONSTRUCTION. In the construction of this Code of Ordinances, the rules of statutory construction as set forth in Chapter 4 of the *Code of Iowa* shall be utilized to ascertain the intent of the Council, with the understanding that the term “statute” as used therein will be deemed to be synonymous with the term “ordinance” when applied to this Code of Ordinances.

1.07 EXTENSION OF AUTHORITY. Whenever an officer or employee is required or authorized to do an act by a provision of this Code of Ordinances, the provision shall be construed as authorizing performance by a regular assistant, subordinate, or a duly authorized designee of said officer or employee.

1.08 AMENDMENTS. All ordinances that amend, repeal, or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection, or paragraph to maintain an orderly codification of ordinances of the City.

(Code of Iowa, Sec. 380.2)

1.09 CATCHLINES AND NOTES. The catchlines of the several sections of this Code of Ordinances, titles, headings (chapter, section and subsection), editor’s notes, cross references, and State law references, unless set out in the body of the section itself, contained in this Code of Ordinances, do not constitute any part of the law and are intended merely to indicate, explain, supplement, or clarify the contents of a section.

1.10 ALTERING CODE. It is unlawful for any unauthorized person to change or amend, by additions or deletions, any part or portion of this Code of Ordinances, or to insert or delete pages, or portions thereof, or to alter or tamper with this Code of Ordinances in any manner that will cause the law of the City to be misrepresented.

1.11 SEVERABILITY. If any section, provision, or part of this Code of Ordinances is adjudged invalid or unconstitutional, such adjudication will not affect the validity of this Code of Ordinances as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

1.12 WARRANTS. If consent to enter upon or inspect any building, structure, or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the *Code of Iowa*, for an administrative search warrant. No owner, operator or occupant, or any other person having charge, care, or control of any dwelling unit, rooming unit, structure, building, or premises shall fail or neglect, after presentation of a search warrant, to permit entry therein by the municipal officer or employee.

1.13 GENERAL STANDARDS FOR ACTION. Whenever this Code of Ordinances grants any discretionary power to the Council or any commission, board, or officer or employee of the City and does not specify standards to govern the exercise of the power, the power shall be exercised in light of the following standard: The discretionary power to grant, deny, or

revoke any matter shall be considered in light of the facts and circumstances then existing and as may be reasonably foreseeable, and due consideration shall be given to the impact upon the public health, safety and welfare, and the decision shall be that of a reasonably prudent person under similar circumstances in the exercise of the police power.

1.14 STANDARD PENALTY. Unless another penalty is expressly provided by this Code of Ordinances for violation of any particular provision, section, or chapter, any person failing to perform a duty required by this Code of Ordinances or otherwise violating any provision of this Code of Ordinances or any rule or regulation adopted herein by reference shall, upon conviction, be subject to a fine of at least \$65.00 but not to exceed \$625.00. 36.05 Notifications

36.06 Police Authority

36.07 Liability

36.01 PURPOSE. In order to reduce the danger to the public health, safety, and welfare from the leaks and spills of hazardous substances, these regulations are promulgated to establish responsibility for the treatment, removal and cleanup of hazardous substance spills within the City limits.

36.02 DEFINITIONS. For purposes of this chapter the following terms are defined:

1. “Cleanup” means actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove, or dispose of a hazardous substance.

(Code of Iowa, Sec. 455B.381[1])

2. “Hazardous condition” means any situation involving the actual, imminent, or probable spillage, leakage, or release of a hazardous substance onto the land, into a water of the State, or into the atmosphere which creates an immediate or potential danger to the public health or safety or to the environment.

(Code of Iowa, Sec. 455B.381[4])

3. “Hazardous substance” means any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. “Hazardous substance” may include any hazardous waste identified or listed by the administrator of the United States Environmental Protection Agency under the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976, or any toxic pollutant listed under Section 307 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under Section 311 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the Secretary of Transportation under the Hazardous Materials Transportation Act.

(Code of Iowa, Sec. 455B.381[5])

4. “Hazardous waste” means a waste or combination of wastes that, because of its quantity, concentration, biological degradation, leaching from precipitation, or physical, chemical or infectious characteristics, has either of the following effects:

A. Causes or significantly contributes to an increase in mortality or an increase in serious irreversible, or incapacitating reversible illness; or

B. Poses a substantial danger to human health or the environment.

“Hazardous waste” may include (but is not limited to) wastes that are toxic, corrosive or flammable, or irritants, strong sensitizers or explosives.

5. “Responsible person” means a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance, the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance when a hazardous condition occurs, whether the person owns the hazardous substance or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance.

(Code of Iowa, Sec. 455B.381[7])

36.03 CLEANUP REQUIRED. Whenever a hazardous condition is created by the deposit, injection, dumping, spilling, leaking or placing of a hazardous substance, so that the hazardous substance or a constituent of the hazardous substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition. The costs of cleanup shall be borne by the responsible person. If the responsible person does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, the City may, by an authorized officer, give reasonable notice, based on the character of the hazardous condition, said notice setting a deadline for accomplishing the cleanup and stating that the City will proceed to procure cleanup services and bill the responsible person for all costs associated with the cleanup if the cleanup is not accomplished within the deadline. In the event that it is determined that immediate cleanup is necessary as a result of the present danger to the public health, safety and welfare, then no notice shall be required and the City may proceed to procure the cleanup and bill the responsible person for all costs associated with the cleanup. If the bill for those services is not paid within 30 days, the City Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the City to finance it, the authorized officer shall report to the Council and immediately seek any State or federal funds available for said cleanup.

36.04 LIABILITY FOR CLEANUP COSTS. The responsible person shall be strictly liable to the City for all of the following:

1. The reasonable cleanup costs incurred by the City or the agents of the City as a result of the failure of the responsible person to clean up a hazardous substance involved in a hazardous condition.
2. The reasonable costs incurred by the City or the agents of the City to evacuate people from the area threatened by a hazardous condition caused by the person.
3. The reasonable damages to the City for the injury to, destruction of, or loss of City property, including parks and roads, resulting from a hazardous condition caused by that person, including the costs of assessing the injury, destruction or loss.
4. The excessive and extraordinary cost incurred by the City or the agents of the City in responding at and to the scene of a hazardous condition caused by that person.

The costs references above shall be as determined by the local Fire Chief for: manpower; apparatus; ambulance/rescue squad; command vehicle or utility truck; supplies and outside services; mileage; decontamination; repairs, replacement and maintenance of equipment, apparatus or supplies; plus a reasonable administrative fee. It is unlawful for any responsible person to fail to pay a billing for such services within thirty (30) days of receipt.

36.05 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance or hazardous waste shall notify the State Department of Natural Resources and the Police Department and the local Fire Chief of the occurrence of a hazardous condition as soon as possible but not later than one (1) hour after the onset of the hazardous condition or discovery of the hazardous condition. The Fire Chief shall notify the County Emergency Management Office for assistance in contacting the proper State office in the manner established by the State.
2. Any other person who discovers a hazardous condition shall notify the Fire Department. The Fire Chief shall notify the County Emergency Management Office for assistance in contacting the proper State office in the manner established by the State.

1. Evacuate persons from their homes to areas away from the site of a hazardous condition, and
2. Establish perimeters or other boundaries at or near the site of a hazardous condition and limit access to cleanup personnel.

No person shall disobey an order of any law enforcement officer issued under this section.

The hearing will be before the Council at a time and place fixed by the Council. The findings of the Council shall be conclusive and, if a nuisance is found to exist, it shall be ordered abated within a reasonable time under the circumstances.
4. Abatement in Emergency. If it is determined that an emergency exists by reason of the continuing maintenance of the nuisance or condition, the City may perform any action that may be required under this chapter without prior notice. Any premises guarded by a guard dog shall be prominently posted with a sign containing the wording "Guard Dog," "Vicious Dog" or words of similar import, and the owner of such premises shall inform the local law enforcement officers that a guard dog is on duty at said premises.

1. In the event that a dangerous animal or vicious animal is found at large and unattended upon public property, park property, public right-of-way or the property of someone other than its owner, thereby creating a hazard to persons or property, such animal may, in the discretion of the Mayor or Police Chief, be destroyed if it cannot be confined or captured. The City shall be under no duty to attempt the confinement or capture of a dangerous animal or vicious animal found at large, nor shall it have a duty to notify the owner of such animal prior to its destruction.

2. Upon the complaint of any individual that a person is keeping, sheltering or harboring a dangerous animal or vicious animal on premises in the City, the Mayor or Police Chief shall cause the matter to be investigated and if after investigation, the facts indicate that the person named in the complaint is keeping, sheltering or harboring a dangerous or vicious animal in the City, such officer shall order the person named in the complaint to safely remove such animal from the City or destroy the animal within three (3) days of the receipt of such an order. Such order shall be contained in a notice to remove the dangerous or vicious animal, which notice shall be given in writing to the person keeping, sheltering or harboring the dangerous animal or vicious animal, and

shall be served personally or by certified mail. Such order and notice to remove the dangerous animal or vicious animal shall not be required where such animal has previously caused serious physical harm or death to any person, in which case the officer shall cause the animal to be immediately seized and impounded or killed if seizure and impoundment are not possible without risk of serious physical harm or death to any person.

In order to appeal such order, written notice of appeal must be filed with the Clerk within three (3) days after receipt of the order contained in the notice to remove the dangerous or vicious animal. Failure to file such written notice of appeal shall constitute a waiver of the right to appeal the order of the officer.

Such dogs may not be leashed to inanimate objects such as trees, posts, buildings, etc. In addition, all pit bull and vicious dogs on a leash outside the animal's kennel or pen must be muzzled by a muzzling device sufficient to prevent such dog from biting persons or other animals.

B. Confinement. All pit bull and vicious dogs shall be securely confined indoors or in a securely enclosed and locked pen or kennel, except when leashed and muzzled as above provided. Such pen, kennel or structure must have secure sides and a secure top attached to the sides. All structures used to confine pit bull dogs and vicious animals must be locked with a key or combination lock while such animals are within the structure. Such structure must have a secure

bottom or floor attached to the sides of the pen or the sides of the pen must be imbedded in the ground no less than two (2) feet. All structures erected to house pit bull dogs and vicious dogs must comply with all zoning and be adequately lighted and ventilated and kept in a clean and sanitary condition.

C. Confinement Indoors. No pit bull dog or vicious dog may be kept on a porch, patio or in any part of a house or structure that would allow the dog to exit such building on its own volition. In addition, no such animal may be kept in a house or structure when the windows are open or when screen windows or screen doors are the only obstacles preventing the dog from exiting the structure.

D. Signs. All owners, keepers or harborers of pit bull dogs and vicious dogs within the City shall display in a prominent place on their premises a sign easily readable by the public using the words "Beware of Dog." In addition, a similar sign is required to be posted on the kennel or pen of such animals.

E. Insurance. All owners, keepers or harborers of pit bull dogs or vicious dogs within the City shall provide proof to the Clerk of public liability insurance in a single incident amount of \$50,000.00 for bodily injury to or death of any person or persons or for damages to property owned by any persons which may result from the ownership, keeping or maintenance of such animal. Such insurance policy shall provide that no cancellation of the policy will be made unless ten (10) days' written notice is first given to the Clerk.

F. Identification Photographs. All owners, keepers or harborers of pit bull dogs and vicious dogs must provide to the Clerk two color photographs (different views) of the animal clearly showing the color and approximate size of the animal.

G. Reporting Requirements. All owners, keepers or harborers of pit bull dogs and vicious dogs must, within ten (10) days of the incident, report the following information in writing to the Clerk as required herein:

- (2) The birth of offspring of a pit bull dog;
- (3) The new address of a pit bull dog owner should the owner move within the corporate City limits.

H. Sale or Transfer of Ownership Prohibited. No person shall sell, barter or in any other way dispose of a pit bull dog to any person within the City unless the recipient person resides permanently in the same household and on the same premises as the owner of such dog; provided, the owner of a pit bull dog may sell or otherwise dispose of a dog or the offspring of such dog to persons who do not reside within the City.

I. Animals Born of Pit Bull Dogs. All offspring born of pit bull dogs must be removed from the City within eight (8) weeks of the birth of the animal.

Any dog found to be the subject of a violation of this section shall be subject to immediate seizure and impoundment.

3. **Special Penalty.** In addition to the standard penalty imposed for violation of any provisions of this section, upon conviction, the Court shall order the dog removed from the City. Should the defendant refuse to remove the dog from the City, the Magistrate shall find the defendant owner in contempt of court and order the immediate confiscation and impoundment of the animal. Each day that a violation of this section continues shall be deemed a separate offense. In addition to the foregoing penalties, any person who violates this section shall pay all expenses, including shelter, food, handling, veterinary care and testimony necessitated by the enforcement of this section.

55.13 RELEASING OF ANIMALS.

1. No person shall aid or cause any animal, whether owned by such person or not, to escape confinement or impoundment, whether such confinement is upon such person's property or that of another, by opening any gate, door or window, by making an opening in any fence, enclosure or structure or by unleashing the animal.

2. It is the duty of every person owning or having the custody or control of an animal to physically restrain the animal within an enclosure or upon a leash when such animal is left unattended outside or is not at heel. The animal must be restrained so as to prevent the animal from leaving the premises of its owner or from coming into contact with public right-of-way or the property of another. Failure to restrain an animal pursuant to the foregoing shall constitute a simple misdemeanor.

3. It is unlawful for any person in any manner to interfere with any employee or designated representative of the City so as to hinder, delay or prevent the execution of said person's duties in relation to the matters and things contained in this chapter.

55.14 RABIES VACCINATION. Every owner of a dog shall obtain a rabies vaccination for such animal. It is unlawful for any person to own or have a dog in said person's possession, six months of age or over, which has not been vaccinated against rabies. Dogs kept in State or federally licensed kennels and not allowed to run at large are not subject to these vaccination requirements.

It is the duty of physicians and veterinarians to report to the local board of health the existence of any animal known or suspected to be suffering from rabies.

(Code of Iowa, Sec. 351.38)

55.16 CONFINEMENT. If a local board of health receives information that an animal has bitten a person or that a dog or animal is suspected of having rabies, the board shall order the owner to confine such animal in the manner it directs. If the owner fails to confine such animal in the manner directed, the animal shall be apprehended and impounded by such board, and after 10 days the board may humanely destroy the animal. If such animal is returned to its owner, the owner shall pay the cost of impoundment. This section does not apply if a police service dog or a horse used by a law enforcement agency and acting in the performance of its duties has bitten a person.

75.01 PURPOSE. The purpose of this chapter is to regulate the operation of all-terrain vehicles and snowmobiles within the City.

75.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. “All-terrain vehicle” or “ATV” means a motorized vehicle, with not less than three and not more than six non-highway tires, that is limited in engine displacement to less than 1,000 cubic centimeters and in total dry weight to less than 1,200 pounds and that has a seat or saddle designed to be straddled by the operator and handlebars for steering control.

An operator of an off-road motorcycle is also subject to the provisions of this chapter governing the operation of all-terrain vehicles.

(Code of Iowa, Sec. 321I.1)

3. “Off-road utility vehicle” means a motorized vehicle, with not less than four and not more than eight non-highway tires or rubberized tracks, that has a seat that is of bucket or bench design, not intended to be straddled by the operator, and a steering wheel or control levers for control. “Off-road utility vehicle” includes the following vehicles:

An operator of an off-road utility vehicle is also subject to the provisions of this chapter governing the operation of all-terrain vehicles.

4. “Snowmobile” means a motorized vehicle that weighs less than 1,000 pounds, that uses sled-type runners or skis, endless belt-type tread with a width of 48 inches or less, or any combination of runners, skis, or tread, and is designed for travel on snow or

ice. “Snowmobile” does not include an all-terrain vehicle that has been altered or equipped with runners, skis, belt-type tracks, or treads.

(Code of Iowa, Sec. 321G.1)

75.03 GENERAL REGULATIONS. No person shall operate an ATV, off-road motorcycle or off-road utility vehicle within the City in violation of Chapter 321I of the *Code of Iowa* or a snowmobile within the City in violation of the provisions of Chapter 321G of the *Code of Iowa* or in violation of rules established by the Natural Resource Commission of the Department of Natural Resources governing their registration, equipment and manner of operation.

(Code of Iowa, Sec. 321G.9[4c])

B. Direct Crossing. Snowmobiles may make a direct crossing of a prohibited street provided all of the following occur:

(1) The crossing is made at an angle of approximately 90 degrees to the direction of the street and at a place where no obstruction prevents a quick and safe crossing;

(2) The snowmobile is brought to a complete stop before crossing the street;

(3) The driver yields the right-of-way to all on-coming traffic that constitutes an immediate hazard; and

(4) In crossing a divided street, the crossing is made only at an intersection of such street with another street.

(Code of Iowa, Sec. 321G.9[2])

3. Railroad Right-of-Way. Snowmobiles shall not be operated on an operating railroad right-of-way. A snowmobile may be driven directly across a railroad right-of-way only at an established crossing and notwithstanding any other provisions of law may, if necessary, use the improved portion of the established crossing after yielding to all oncoming traffic.

1. Streets. ATVs and off-road utility vehicles may be operated on streets only in accordance with Section 321.234A of the *Code of Iowa* or on such streets as may be designated by resolution of the Council for the operation of registered ATVs or registered off-road utility vehicles. An ATV may be driven directly across a railroad right-of-way only at an established crossing and notwithstanding any other provisions of law may, if necessary, use the improved portion of the established crossing after yielding to all oncoming traffic.

(Code of Iowa, Sec. 321I.14[1h])

4. Parks and Other City Land. ATVs shall not be operated in any park, playground or upon any other City-owned property without the express permission of the City.

(Code of Iowa, Sec. 321I.10[5])

A. The crossing is made at an angle of approximately ninety degrees to the direction of the highway and at a place where no obstruction prevents a quick and safe crossing.

B. The all-terrain vehicle or off-road utility vehicle is brought to a complete stop before crossing the shoulder or main traveled way of the highway.

C. The driver yields the right-of-way to all oncoming traffic which constitutes an immediate hazard.

D. In crossing a divided highway, the crossing is made only at an intersection of such highway with another public street or highway.

E. The crossing is made from a street, roadway, or highway designated as an all-terrain vehicle trail by any State agency, the County, or the City to a

street, roadway, or highway designated as an all-terrain vehicle trail by any State agency, the County, or the City.

75.06 NEGLIGENCE. The owner and operator of an ATV or snowmobile are liable for any injury or damage occasioned by the negligent operation of the ATV or snowmobile. The owner of an ATV or snowmobile shall be liable for any such injury or damage only if the owner was the operator of the ATV or snowmobile at the time the injury or damage occurred or if the operator had the owner's consent to operate the ATV or snowmobile at the time the injury or damage occurred.

(Code of Iowa, Sec. 321G.18 & 321I.19)

75.07 ACCIDENT REPORTS. Whenever an ATV or snowmobile is involved in an accident resulting in injury or death to anyone or property damage amounting to \$1,500.00 or more, either the operator or someone acting for the operator shall immediately notify a law enforcement officer and shall file an accident report, in accordance with State law.

80.01 DEFINITIONS. For use in this chapter, the following terms are defined:

(Code of Iowa, Sec. 321.89[1] & Sec. 321.90)

1. “Abandoned vehicle” means any of the following:
 - A. A vehicle that has been left unattended on public property for more than 24 hours and lacks current registration plates or two or more wheels or other parts which renders the vehicle totally inoperable.
 - B. A vehicle that has remained illegally on public property for more than 24 hours.
 - C. A vehicle that has been unlawfully parked or placed on private property without the consent of the owner or person in control of the property for more than 24 hours.

 - E. Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.
 - F. A vehicle that has been impounded pursuant to Section 321J.4B of the *Code of Iowa* by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.
2. “Demolisher” means a person licensed under Chapter 321H of the *Code of Iowa* whose business it is to convert a vehicle to junk, processed scrap or scrap metal, or otherwise to wreck, or dismantle vehicles.
3. “Garage keeper” means any operator of a parking place or establishment, motor vehicle storage facility, or establishment for the servicing, repair, or maintenance of motor vehicles.
4. “Police authority” means the Iowa State Patrol or any law enforcement agency of a county or city.

80.02 AUTHORITY TO TAKE POSSESSION OF ABANDONED VEHICLES. A police authority, upon the authority’s own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned vehicle on public property and may take into custody any abandoned vehicle on private property. The police authority may employ its own personnel, equipment, and facilities or hire a private entity,

equipment, and facilities for the purpose of removing, preserving, storing, or disposing of abandoned vehicles. A property owner or other person in control of private property may employ a private entity that is a garage keeper to dispose of an abandoned vehicle, and the private entity may take into custody the abandoned vehicle without a police authority's initiative. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle.

(Code of Iowa, Sec. 321.89[2])

80.03 NOTICE BY MAIL. The police authority or private entity that takes into custody an abandoned vehicle shall notify, within 20 days, by certified mail, the last known registered owner of the vehicle, all lienholders of record, and any other known claimant to the vehicle or to personal property found in the vehicle, addressed to the parties' last known addresses of record, that the abandoned vehicle has been taken into custody. Notice shall be deemed given when mailed. The notice shall describe the year, make, model and vehicle identification number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within 10 days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of the notice. The notice shall also state that the failure of the owner, lienholders or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders and claimants of all right, title, claim and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a public auction or disposal of the vehicle to a demolisher and to disposal of the personal property by sale or destruction. If the abandoned vehicle was taken into custody by a private entity without a police authority's initiative, the notice shall state that the private entity may claim a garage keeper's lien as described in Section 321.90 of the *Code of Iowa*, and may proceed to sell or dispose of the vehicle. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the 10-day reclaiming period, the owner, lienholders or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders or claimants after the expiration of the 10-day reclaiming period.

(Code of Iowa, Sec. 321.89[3a])

80.04 NOTIFICATION IN NEWSPAPER. If it is impossible to determine with reasonable certainty the identity and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Section 80.03. The published notice may contain multiple listings of abandoned vehicles and personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Section 80.03.

(Code of Iowa, Sec. 321.89[3b])

80.05 FEES FOR IMPOUNDMENT. The owner, lienholder, or claimant shall pay \$3.00 if claimed within five days of impounding, plus \$1.00 for each additional day within the reclaiming period plus towing charges, if stored by the City, or towing and storage fees, if stored in a public garage, whereupon said vehicle shall be released. The amount of towing charges, and the rate of storage charges by privately owned garages, shall be established by such facility.
(Code of Iowa, Sec. 321.89[3a])

80.06 DISPOSAL OF ABANDONED VEHICLES. If an abandoned vehicle has not been reclaimed as provided herein, the police authority or private entity shall make a determination as to whether or not the motor vehicle should be sold for use upon the highways, and shall dispose of the motor vehicle in accordance with State law.
(Code of Iowa, Sec. 321.89[4])

80.07 DISPOSAL OF TOTALLY INOPERABLE VEHICLES. The City or any person upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost or destroyed, may dispose of such motor vehicle to a demolisher for junk, without a title and without notification procedures, if such motor vehicle lacks an engine or two or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.
(Code of Iowa, Sec. 321.90[2e])

80.08 PROCEEDS FROM SALES. Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing, and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for 90 days, and then shall be deposited in the State Road Use Tax Fund. Where the sale of any vehicle fails to realize the amount necessary to meet costs the police authority shall apply for reimbursement from the Department of Transportation.

This chapter shall apply to all replacements of existing water service pipes as well as to new ones. The Superintendent shall make such rules, not in conflict with the provisions of this chapter, as may be needed for the detailed operation of the water system, subject to the approval of the Council. In the event of an emergency the Superintendent may make temporary rules for the protection of the system until due consideration by the Council may be had.

(Code of Iowa, Sec. 372.13[4])

90.03 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be connected to the public water system, if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

90.04 ABANDONED CONNECTIONS. When an existing water service is abandoned or a service is renewed with a new tap in the main, all abandoned connections with the mains shall be turned off at the corporation stop and made absolutely watertight.

If the proposed work meets all the requirements of this chapter and if all fees required under this chapter have been paid, the permit shall be issued. Work under any permit must be completed within 60 days after the permit is issued, except that when such time period is inequitable or unfair due to conditions beyond the control of the person making the application, an extension of time within which to complete the work may be granted. The permit may be revoked at any time for any violation of these chapters.

90.06 CONNECTION CHARGE. There shall be a connection charge in the amount of \$300.00 paid before issuance of a permit to reimburse the City for costs borne by the City in making water service available to the property served.

(Code of Iowa, Sec. 372.13[4])

1. Independent Services. No more than one house, building, or premises shall be supplied from one tap unless special written permission is obtained from the Superintendent and unless provision is made so that each house, building, or premises may be shut off independently of the other.
2. Sizes and Location of Taps. All mains six inches or less in diameter shall receive no larger than a three-fourths-inch tap. All mains of over six inches in diameter shall receive no larger than a one-inch tap. Where a larger connection than a one-inch tap is desired, two or more small taps or saddles shall be used, as the Superintendent shall order. 3. Corporation Stop. A brass corporation stop, of the pattern and weight approved by the Superintendent, shall be inserted in every tap in the main. The corporation stop in the main shall be of the same size as the service pipe.

4. Location Record. An accurate and dimensional sketch showing the exact location of the tap shall be filed with the Superintendent in such form as the Superintendent shall require.

90.11 INSTALLATION OF WATER SERVICE PIPE. Water service pipes from the main to the meter setting shall be Type K copper. The use of any other pipe material for the service line shall first be approved by the Superintendent. Pipe must be laid sufficiently waving, and to such depth, as to prevent rupture from settlement or freezing.

90.12 RESPONSIBILITY FOR WATER SERVICE PIPE. All costs and expenses incident to the installation, connection and maintenance of the water service pipe from the lot line to the building served shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation or maintenance of said water service pipe.

90.13 FAILURE TO MAINTAIN. When any portion of the water service pipe which is the responsibility of the property owner becomes defective or creates a nuisance and the owner fails to correct such nuisance, the City may do so and assess the costs thereof to the property.

(Code of Iowa, Sec. 364.12[3a & h])

90.14 CURB VALVE. There shall be installed within the public right-of-way a main shut-off valve on the water service pipe of a pattern approved by the Superintendent. The shut-off valve shall be constructed to be visible and even with the pavement or ground.

90.15 INTERIOR VALVE. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.16 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for 24 hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the City shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before receiving another permit. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.18 SHUTTING OFF WATER SUPPLY. The Superintendent may shut off the supply of water to any customer because of any violation of the regulations contained in these Water Service System chapters that is not being contested in good faith. The supply shall not be turned

on again until all violations have been corrected and the Superintendent has ordered the water to be turned on.

90.19 OPERATION OF CURB VALVE AND HYDRANTS. It is unlawful for any person except the Superintendent to turn water on at the curb valve, and no person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

If the property to be connected to a public sewer has not been assessed for any part of the cost of construction of the public sewers, or has been assessed only as an unimproved lot or area, the owner shall pay a special connection charge to the City for the use of the public sewers before permission to hook up is granted. The amount of this fee shall be the proportionate share of the cost of construction of the line serving the property, less any portion of such cost which has been previously paid.

96.03 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a State-licensed plumber.

96.04 EXCAVATIONS. All excavations for building sewer installations shall be made in accordance with the *State Plumbing Code* and the following:

1. **Barricades and Lighting.** Adequate barricades and warning lights shall be so placed as to protect the public from hazard.
2. **Public Convenience.** Streets and alleys shall be opened in the manner which will cause the least inconvenience to the public and admit the uninterrupted passage of water along the gutter on the street.
3. **Pipe Bed.** Immediately prior to installing the pipe, the trench bottom shall be accurately shaped and graded by hand and bell holes shall be excavated so that the pipe will have uniform contact with a longitudinal bearing on undisturbed earth along its entire barrel length. Bell holes shall be excavated by the pipe layer immediately prior to laying the pipe and shall be of such depth that the pipe bell does not come in contact with the bottom of the bell hole. All sewer pipe shall be laid with the bell end upgrade. Where the floor of the trench at the proper grade is of hard or rock material, the floor

shall be excavated four inches or more below grade and backfilled with fine gravel or material approved by the Superintendent. Where the floor of the trench at the proper grade is of unstable material the same treatment as described above shall be provided.

4. Backfill. All sewer pipe shall be provided with adequate bottom and lateral support by thoroughly, carefully and adequately tamping and ramming suitable and proper backfill material beneath, around and to the top of the pipe between the bell holes and sewer joints. All material used for pipe embedment and tamped backfill shall be free of stones, sticks, large clods, lumps of earth, debris, or similar material. When backfill is made in and across a roadway ditch or other watercourse it shall be protected from surface erosion by adequate means. Backfill shall be made with dirt and tamped by hand to a depth of six inches over the pipe. The remainder of the trench shall be backfilled and tamped with gravel or materials approved by the Superintendent. All excess dirt will be removed immediately and before the connection is approved by the Superintendent.

5. Restoration of Public Property. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored by the City.

6. Completion by the City. Should any excavation in any street or alley be discontinued or left open and unfinished for a period of 24 hours or should the work be improperly done, the Superintendent shall have the right to finish or correct such work.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. Old Building Sewers. Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.

2. Separate Building Sewers. A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code*, applicable rules and regulations of the City, or the procedures set forth in A.S.T.M. Specification C-12. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least 10 feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least 12 inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:

- A. Recommended grade at one-fourth inch per foot.
 - B. Minimum grade of one-eighth inch per foot.
 - C. Minimum velocity of two feet per second with the sewer half full.
 - D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.
7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.
8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.
9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:
- A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).
 - B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.
 - C. Ductile iron water pipe – A.W.W.A. C-151.
 - D. P.V.C. – SDR26 – A.S.T.M. D-3034.
10. Bearing Walls. No building sewer shall be laid parallel to or within three feet of any bearing wall that might thereby be weakened.
11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.
12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.
13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling

of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid underground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection, and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines, whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within 30 days after date of official notice from the Council of such violation. If not made within such time, the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

97.04 Restricted Discharges

97.05 Restricted Discharges; Powers of Superintendent
97.06 Special Facilities
97.07 Control Manholes
97.08 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers that are specifically designated as combined sewers or storm sewers or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
5. Excessive B.O.D., Solids or Flow.

average daily flow greater than two percent of the average sewage flow of the City, shall be subject to the review of the Superintendent.

B. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to: (i) reduce the biochemical oxygen demand to 300 parts per million by weight; or (ii) reduce the suspended solids to 350 parts per million by weight; or (iii) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than 150 degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances that may solidify or become viscous at temperatures between 32 degrees F and 150 degrees F (0 degrees to 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits that may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.

8. **Radioactive Wastes.** Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or federal regulations.
9. **Excess Alkalinity.** Any waters or wastes having a pH in excess of 9.5.
10. **Unusual Wastes.** Materials that exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting “slugs” as defined herein.
11. **Noxious or Malodorous Gases.** Any noxious or malodorous gas or other substance that, either singly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. **Damaging Substances.** Any waters, wastes, materials, or substances that react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. **Untreatable Wastes.** Waters or wastes containing substances that are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES; POWERS OF SUPERINTENDENT. If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. **Rejection.** Reject the wastes by requiring disconnection from the public sewage system;
2. **Pretreatment.** Require pretreatment to an acceptable condition for discharge to the public sewers;
3. **Controls Imposed.** Require control over the quantities and rates of discharge; and/or
4. **Special Charges.** Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples).

(Code of Iowa, Sec. 384.84)

99.02 SPECIAL RATES. Where, in the judgment of the Superintendent and the Council, special conditions exist to the extent that the application of the sewer charges provided in Section 99.01 would be inequitable or unfair to either the City or the customer, a special rate shall be proposed by the Superintendent and submitted to the Council for approval by resolution.

(Code of Iowa, Sec. 384.84)

99.03 PRIVATE WATER SYSTEMS. Customers whose premises are served by a private water system shall pay sewer charges based upon the water used as determined by the City either by an estimate agreed to by the customer or by metering the water system at the customer's expense. G. Post-use polymers or recoverable feedstocks that are any of the following:

- (1) Processed at a pyrolysis or gasification facility.
- (2) Held at a pyrolysis or gasification facility prior to processing to ensure production is not interrupted.

105.03 SANITARY DISPOSAL REQUIRED. It is the duty of each owner to provide for the sanitary disposal of all refuse accumulating on the owner's premises before it becomes a nuisance. Any such accumulation remaining on any premises for a period of more than 30 days shall be deemed a nuisance and the City may proceed to abate such nuisances in accordance with the provisions of Chapter 50 or by initiating proper action in district court.

(Code of Iowa, Ch. 657)

105.04 HEALTH AND FIRE HAZARD. It is unlawful for any person to permit to accumulate on any premises, improved or vacant, or on any public place, such quantities of solid waste that constitute a health, sanitation or fire hazard.

105.05 OPEN BURNING RESTRICTED. No person shall allow, cause or permit open burning of rubbish, garbage, paper, construction debris, tires, plastics or any other combustible materials where the products of combustion are emitted into the open air without passing through a chimney or stack, except that open burning is permitted in the following circumstances:

155.12 POSTING OF PERMIT. A copy of the permit shall be kept on the premises open to public inspection during the prosecution of the work and until the completion of same. 19. “Floodway” means the channel of a river or stream and those portions of the flood plains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one foot.

20. “Floodway fringe” means those portions of the special flood hazard area outside the floodway.
21. “Highest adjacent grade” means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

29. “Routine maintenance of existing buildings and facilities” means repairs necessary to keep a structure in a safe and habitable condition that do not trigger a building permit, provided they are not associated with a general improvement of the structure or repair of a damaged structure. Such repairs include:
- A. Normal maintenance of structures such as re-roofing, replacing roofing tiles and replacing siding;
 - B. Exterior and interior painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work;

31. “Start of construction” includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement, was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. Volunteer labor and donated materials shall be included in the estimated cost of repair.
34. “Substantial improvement” means any improvement to a structure which satisfies either of the following criteria:

A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure either: (i) before the start of construction of the improvement; or (ii) if the structure has been substantially damaged and is being restored, before the damage occurred.

The term does not, however, include any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions. The term also does not include any alteration of a historic structure, provided the alteration will not preclude the structure's designation as a historic structure.

B. Any addition which increases the original floor area of a building by 25 percent or more. All additions constructed after the effective date of the first floodplain management regulations adopted by the community shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.

35. "Variance" means a grant of relief by a community from the terms of the flood plain management regulations.

36. "Violation" means the failure of a structure or other development to be fully compliant with the community's flood plain management regulations.

156.02 STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSE.

1. The Legislature of the State of Iowa has in Chapter 364, *Code of Iowa*, as amended, delegated the power to cities to exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges and property of the City or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort and convenience of its residents.

2. Findings of Fact.

A. The flood hazard areas of the City are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety and general welfare of the community.

B. These flood losses, hazards, and related adverse effects are caused by: (i) the occupancy of flood hazard areas by uses vulnerable to flood damages which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding; and (ii) the cumulative effect of obstructions on the flood plain causing increases in flood heights and velocities.

3. Statement of Purpose. It is the purpose of this chapter to protect and preserve the rights, privileges and property of the City and its residents and to preserve and improve the peace, safety, health, welfare, and comfort and convenience of its residents by minimizing those flood losses described in Paragraph 2(A) of this section with provisions designed to:

- A. Restrict or prohibit uses which are dangerous to health, safety or property in times of flood or which cause excessive increases in flood heights or velocities.
- B. Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.
- C. Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.
- D. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

156.03 GENERAL PROVISIONS.

1. **Lands to Which Chapter Applies.** The provisions of this chapter shall apply to all areas having special flood hazards within the jurisdiction of the City of Fontanelle. For the purpose of this chapter, the special flood hazard areas are those areas designated as Zone A on the Flood Insurance Rate Map (FIRM) for Adair County and Incorporated Areas, City of Fontanelle, Panels 19001C0287A, 0291A, dated April 5, 2017, which is hereby adopted and made a part of this chapter.
2. **Rules for Interpretation of Flood Hazard Boundaries.** The boundaries of the Special Flood Hazard areas shall be determined by scaling distances on the official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the Mayor shall make the necessary interpretation. The City Council shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Mayor in the enforcement or administration of this chapter.
3. **Compliance.** No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this chapter and other applicable regulations which apply to uses within the jurisdiction of this chapter.
4. **Abrogation and Greater Restrictions.** It is not intended by this chapter to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this chapter imposes greater restrictions, the provisions of this chapter shall prevail. All other ordinances inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.
5. **Interpretation.** In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements and shall be liberally construed in favor of the governing body and shall not be deemed a limitation or repeal of any other powers granted by State statutes.
6. **Warning and Disclaimer of Liability.** The standards required by this chapter are considered reasonable for regulatory purposes. This chapter does not imply that areas outside the designated special flood hazard areas will be free from flooding or flood damages. This chapter shall not create liability on the part of the City or any officer or employee thereof for any flood damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.

7. Severability. If any section, clause, provision or portion of this chapter is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this chapter shall not be affected thereby.

156.04 ADMINISTRATION.

1. Appointment, Duties and Responsibilities of Administrator.

A. The Mayor is hereby appointed to implement and administer the provisions of this chapter and will herein be referred to as the Administrator.

B. Duties and responsibilities of the Administrator shall include, but not necessarily be limited to the following:

(1) Review all flood plain development permit applications to assure that the provisions of this chapter will be satisfied.

(2) Review flood plain development applications to assure that all necessary permits have been obtained from federal, state and local governmental agencies including approval when required from the Department of Natural Resources for flood plain construction.

(3) Record and maintain a record of: (i) the elevation (in relation to North American Vertical Datum 1988) of the lowest floor (including basement) of all new or substantially improved structures; or (ii) the elevation to which new or substantially improved structures have been floodproofed.

(4) Notify adjacent communities/counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.

(5) Keep a record of all permits, appeals and such other transactions and correspondence pertaining to the administration of this chapter.

(6) Submit to the Federal Insurance Administrator an annual report concerning the community's participation, utilizing the annual report form supplied by the Federal Insurance Administrator.

(7) Notify the Federal Insurance Administration of any annexations or modifications to the community's boundaries.

(8) Review subdivision proposals to insure such proposals are consistent with the purpose of this chapter and advise the City Council of potential conflict.

(9) Maintain the accuracy of the community's Flood Insurance Rate Maps when;

a. Development placed within the Floodway results in any of the following: (i) an increase in the Base Flood Elevations; or (ii) alteration to the floodway boundary.

b. Development place in Zones A, AE, AH, and A1-30 that does not include a designated floodway that will cause a rise of more than one foot in the base flood elevation; or

c. Development relocates or alters the channel.

Within six months of the completion of the development, the applicant shall submit to FEMA all scientific and technical data necessary for a Letter of Map Revision.

(10) Perform site inspections to ensure compliance with the standards of this Ordinance.

2. Flood Plain Development Permit.

A. Permit Required. A Flood Plain Development Permit issued by the Administrator shall be secured prior to any flood plain development (any manmade change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, excavation or drilling operations), including the placement of factory-built homes.

B. Application for Permit. Application shall be made on forms furnished by the Administrator and shall include the following:

(1) Description of the work to be covered by the permit for which application is to be made.

(2) Description of the land on which the proposed work is to be done (e.g., lot, block, track, street address or similar description) that will readily identify and locate the work to be done.

(3) Location and dimensions of all buildings and building additions.

(4) Indication of the use or occupancy for which the proposed work is intended.

(5) Elevation of the base flood.

(6) Elevation (in relation to North American Vertical Datum 1988 of the lowest floor (including basement) of buildings or of the level to which a building is to be floodproofed.

(7) For buildings being improved or rebuilt, the estimated cost of improvements and market value of the building prior to the improvements.

(8) Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this chapter.

C. Action on Permit Application. The Administrator shall, within a reasonable time, make a determination as to whether the proposed flood plain development meets the applicable standards of this chapter and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefor. The Administrator shall not issue permits for variances except as directed by the City Council.

D. Construction and Use to Be as Provided in Application and Plans. Flood Plain Development Permits based on the basis of approved plans and applications authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that

authorized shall be deemed a violation of this chapter. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State of Iowa, that the finished fill, building floor elevations, flood proofing, or other flood protection measures were accomplished in compliance with the provisions of this chapter, prior to the use or occupancy of any structure.

156.05 FLOOD PLAIN MANAGEMENT STANDARDS. All uses must be consistent with the need to minimize flood damage and meet the following applicable performance standards. Where base flood elevations have not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to determine: (i) whether the land involved is either wholly or partly within the floodway or floodway fringe; and (ii) the 100 year flood level. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination. Review by the Iowa Department of Natural Resources is not required for the proposed construction of new or replacement bridges or culverts where: (i) the bridge or culvert is located on a stream that drains less than 100 square miles; and (ii) the bridge or culvert is not associated with a channel modification that constitutes a channel change as specified in 567-71.2(1)b, Iowa Administrative Code.

1. All Development. All development within the special flood hazard areas shall:
 - A. Be consistent with the need to minimize flood damage.
 - B. Use construction methods and practices that will minimize flood damage.
 - C. Use construction materials and utility equipment that are resistant to flood damage.
 - D. Obtain all other necessary permits from federal, state and local governmental agencies including approval when required from the Iowa Department of Natural Resources.
2. Residential Structures. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one foot above the base flood elevations. Construction shall be upon compacted fill which shall, at all points, be no lower than one foot above the base flood elevations and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers or extended foundations) may be allowed subject to favorable consideration by the City Council, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding. All new residential structures located in areas that would become isolated due to flooding of surrounding ground shall be provided with a means of access that will be passable by wheeled vehicles during the base flood. However, this criterion shall not apply where the Administrator determines there is sufficient flood warning time for the protection of life and property. When estimating flood warning time, consideration shall be given to the criteria listed in 567-75.2(3), Iowa Administrative Code.
3. Nonresidential Structures. All new or substantially improved nonresidential structures shall have the lowest floor (including basement) elevated a minimum of one foot above the base flood elevation, or together with attendant utility and sanitary

systems, be flood proofed to such a level. When flood proofing is utilized, a professional engineer registered in the State of Iowa shall certify that the flood proofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood; and that the structure, below the base flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988) to which any structures are floodproofed shall be maintained by the Administrator.

4. All New and Substantially Improved Structures.
 - A. Fully enclosed areas below the lowest floor (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:
 - (1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
 - (2) The bottom of all openings shall be no higher than one foot above grade.
 - (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided they permit the automatic entry and exit of floodwaters.Such areas shall be used solely for parking of vehicles, building access and low damage potential storage.
 - B. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
 - C. New and substantially improved structures must be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities elevated or flood proofed to a minimum of one foot above the base flood elevation.

5. Factory-Built Homes:
 - A. All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one foot above the 100-year flood level.
 - B. All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. Anchorage systems may include, but are not limited to, use of over-the-top or frame ties to ground anchors as required by the State Building Code.

6. Utility and Sanitary Systems.
 - A. On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.
 - B. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one foot above the 100-year flood elevation.
 - C. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities (other than on-site systems) shall be provided with a level of protection equal to or greater than one foot above the 100-year flood elevation.
 - D. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.
7. Storage of Materials and Equipment. Storage of equipment and materials that are flammable, explosive or injurious to human, animal or plant life is prohibited unless elevated a minimum of one foot above the base flood elevation. Other material and equipment must either be similarly elevated or: (i) not subject to major flood damage and be anchored to prevent movement due to flood waters; or (ii) readily removable from the area within the time available after flood warning.
8. Flood Control Structures. Flood control structural works such as levees, flood walls, etc. shall provide, at a minimum, protection from the base flood with a minimum of three feet of design freeboard and shall provide for adequate interior drainage. In addition, structural flood control works shall be approved by the Department of Natural Resources.
9. Watercourse Alterations. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, such alterations or relocations must be approved by the Department of Natural Resources.
10. Subdivisions. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this chapter. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the 100-year flood. Proposals for subdivisions greater than five acres or 50 lots (whichever is less) shall include 100-year flood elevation data for those areas located within the Special Flood Hazard Area.
11. Accessory Structures to Residential Uses. Detached garages, sheds, and similar structures that are incidental to a residential use are exempt from the base flood elevation requirements where the following criteria are satisfied.
 - A. The structure shall be designed to have low flood damage potential. Its size shall not exceed 600 square feet in size. Those portions of the structure

located less than one foot above the BFE must be constructed of flood-resistant materials.

B. The structure shall be used solely for low flood damage potential purposes such as vehicle parking and limited storage. The structure shall not be used for human habitation.

C. The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.

D. The structure shall be firmly anchored to resist flotation, collapse and lateral movement.

E. The structure's service facilities such as electrical and heating equipment shall be elevated or floodproofed to at least one foot above the base flood elevation.

F. The structure's walls shall include openings that satisfy the provisions of Subsection 4(A) of this section.

Exemption from the 100-year flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

12. Recreational Vehicles.

A. Recreational vehicles are exempt from the requirements of Subsection 5 of this section regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.

(1) The recreational vehicle shall be located on the site for less than 180 consecutive days; and

(2) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

B. Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of Subsection 5 of this section regarding anchoring and elevation of factory-built homes.

13. Pipeline Crossings. Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

14. Maximum Damage Potential Uses. All new or substantially improved maximum damage potential uses shall have the lowest floor (including basement) elevated a minimum of one foot above the elevation of the 500-year flood, or together with attendant utility and sanitary systems, be floodproofed to such a level. When flood proofing is utilized, a professional engineer registered in the State of Iowa shall certify that the flood proofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood; and that the structure, below the base flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988)

to which any structures are flood proofed shall be maintained by the Administrator. Where 0.2 percent chance flood elevation data has not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determinations.

156.06 ESTABLISHMENT OF VARIANCE PROCEDURES.

1. The City Council may authorize upon request in specific cases such variances from the terms of this chapter that will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this chapter will result in unnecessary hardship. Variances granted must meet the following applicable standards.

A. Variances shall only be granted upon: (i) a showing of good and sufficient cause; (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant; and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.

B. Variances shall not be issued within any designated floodway if any increase in flood levels during the 100-year flood would result. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly situated lands.

C. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

D. In cases where the variance involves a lower level of flood protection for buildings than what is ordinarily required by this chapter, the applicant shall be notified in writing over the signature of the Administrator that: (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25.00 for \$100.00 of insurance coverage; and (ii) such construction increases risks to life and property.

E. All variances granted shall have the concurrence or approval of the Department of Natural Resources.

2. Factors upon Which the Decision of the City Council Shall Be Based. In passing upon applications for variances, the City Council shall consider all relevant factors specified in other sections of this chapter and:

A. The danger to life and property due to increased flood heights or velocities caused by encroachments.

B. The danger that materials may be swept on to other land or downstream to the injury of others.

C. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.

D. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.

- E. The importance of the services provided by the proposed facility to the City.
 - F. The requirements of the facility for a flood plain location.
 - G. The availability of alternative locations not subject to flooding for the proposed use.
 - H. The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
 - I. The relationship of the proposed use to the comprehensive plan and flood plain management program for the area.
 - J. The safety of access to the property in times of flood for ordinary and emergency vehicles.
 - K. The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.
 - L. The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical and water systems), facilities, streets and bridges.
 - M. Such other factors which are relevant to the purpose of this chapter.
3. Conditions Attached to Variances. Upon consideration of the factors listed above, the City Council may attach such conditions to the granting of variances as it deems necessary to further the purpose of this chapter. Such conditions may include, but not necessarily be limited to:
- A. Modification of waste disposal and water supply facilities.
 - B. Limitation of periods of use and operation.
 - C. Imposition of operational controls, sureties, and deed restrictions.
 - D. Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purpose of this chapter.
 - E. Floodproofing measures shall be designed consistent with the flood protection elevation for the particular area, flood velocities, duration, rate of rise, hydrostatic and hydrodynamic forces, and other factors associated with the regulatory flood. The Council shall require that the applicant submit a plan or document certified by a registered professional engineer that the floodproofing measures are consistent with the regulatory flood protection elevation and associated flood factors for the particular area.

156.07 NONCONFORMING USES.

- 1. A structure or the use of a structure or premises which was lawful before the passage or amendment of the ordinance codified in this chapter, but which is not in conformity with the provisions of this chapter, may be continued subject to the following conditions:
 - A. If such use is discontinued for six consecutive months, any future use of the building premises shall conform to this chapter.

B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.

2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than 50 percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this chapter. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.

156.08 PENALTIES FOR VIOLATION. Violations of the provisions of this chapter or failure to comply with any of the requirements shall constitute a misdemeanor. Any person who violates this chapter or fails to comply with any of its requirements shall upon conviction thereof be fined not more than \$500.00 or imprisoned for not more than 30 days. Nothing herein contained shall prevent the City from taking such other lawful action as is necessary to prevent or remedy violation.

156.09 AMENDMENTS. The regulations and standards set forth in this chapter may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval of the Department of Natural Resources.

165.14 VARIATIONS AND EXCEPTIONS. Whenever the tract proposed to be subdivided is of such unusual topography, size, or shape, or is surrounded by such development or unusual conditions that the strict application of the requirements contained in these regulations would result in substantial hardships or injustices, the Council may vary or modify such requirements so that the subdivider is allowed to develop the property in a reasonable manner, but so that, at the same time, the public welfare and interest of the City and surrounding area are protected and the general intent and spirit of these regulations are preserved.

3. Referral. Upon the filing of a preliminary plat, the Clerk shall immediately refer two copies of the plat to the City Engineer for review and three copies to the Council and retain one copy for the City files.
4. Action by City Engineer. The City Engineer will review the preliminary plat and report to the Council as soon as possible the findings concerning the plat's compliance with this chapter, the existing street and utility system and with standard engineering practices.
5. Review of Preliminary Plat. The preliminary plat shall be reviewed by the Council to determine its conformity with these regulations and all other ordinances and regulations in force affecting subdivisions. Copies of the preliminary plat may be transmitted to other City or school officials, as the Council deems necessary, for their recommendations concerning matters within their jurisdiction. Their recommendations, along with those of the City Engineer, shall be transmitted to the Council within three weeks after the date the plat is filed. The Council may confer with the subdivider on changes deemed advisable and the kind and extent of such improvements to be made.

4. Action by Council. After receiving notification from the City Engineer that improvements are in order and after being satisfied that the final plat is in conformity with the approved preliminary plat and the regulations, the Council shall have 60 days from the date of submission in which to take action on the final plat.
5. Transmittal of Final Plat to Subdivider. After approval of the plat by the Council, two approved copies of the final plat shall be returned to the subdivider. One copy of the final plat shall be used by the subdivider for recording purposes.

165.20 DESIGN STANDARDS. All subdivision of land subject to these regulations shall conform to the design standards set forth in this section.

1. Conformity with Master Plan. The proposed subdivision shall conform to the Master Plan of the City. The classification and location of all streets shall conform to the Master Plan and shall be considered in their relation to existing and planned streets, to topographical conditions, to public convenience and safety, and in their appropriate relation to the proposed uses of the land to be served by such streets. Where not shown on the Master Plan, the arrangement and other design standards of streets shall conform to the provisions herein.
 - A. Relation to Adjoining Street System. The arrangement of streets in new subdivisions shall make provisions for the continuance of the existing streets in adjoining areas.

 - (10) Street names: A proposed street which is in alignment with or joins an existing and named street shall bear the name of the existing street. In no case shall the proposed name of the street duplicate the name of an existing street. The use of the suffix "street," "avenue," "boulevard," "driveway," "place" or "court" or similar description is not a distinction sufficient to constitute compliance with this subsection. The proper name or names of streets shall not consist of more than 10 letters or letter spaces combined.
4. Blocks. Sizes of blocks shall be not less than 250 feet or more than 1,000 feet in length measured along the greatest dimension of the enclosed block area. 8. Alleys. Alleys may be required in business areas and industrial districts for adequate access to block interiors and for off-street loading and parking purposes. Except where justified by unusual conditions, alleys will not be approved in residential districts. Dead-end alleys shall be provided with a means of turning around at the dead end thereof.
9. Land Not Platted. Where the plat to be submitted includes only part of the tract owned by the subdivider, the Council may require topography and a sketch of a tentative future street system of the unsubdivided portion.
10. Dedication. An approved dedication or a deed to the City shall be given for all streets before the same will be accepted for City maintenance.
11. Lots. All lots shall conform to the following requirements:
 - A. Corner lots shall have a minimum width of 75 feet in order to permit adequate building setbacks on both front and side streets.
 - B. For the purpose of complying with minimum health standards, the following minimum lot sizes shall be observed:

An affidavit and bond as provided for in Section 354.12 of the *Code of Iowa* may be recorded in lieu of the consent of the mortgage or lienholder. When a mortgage or lienholder consents to the subdivision, a release of mortgage or lien shall be recorded for any areas conveyed to the City or dedicated to the public.

C. An opinion by an attorney-at-law who has examined the abstract of title of the land being platted. The opinion shall state the names of the proprietors and holders of mortgages, liens or other encumbrances on the land being platted and shall note the encumbrances, along with any bonds securing the encumbrances. APPENDIX TO CODE OF ORDINANCES

USE AND MAINTENANCE OF THE CODE OF ORDINANCES

The following information is provided to assist in the use and proper maintenance of this Code of Ordinances.

DISTRIBUTION OF COPIES

1. OFFICIAL COPY. The “OFFICIAL COPY” of the Code of Ordinances must be kept by the City Clerk and should be identified as the “OFFICIAL COPY.”

2. DISTRIBUTION. Other copies of the Code of Ordinances should be made available to all persons having a relatively frequent and continuing need to have access to ordinances which are in effect in the City as well as reference centers such as the City Library, County Law Library, and perhaps the schools.

3. SALE. The sale or distribution of copies in a general fashion is not recommended as experience indicates that indiscriminate distribution tends to result in outdated codes being used or misused.

4. RECORD OF DISTRIBUTION. The City Clerk should be responsible for maintaining an accurate and current record of persons having a copy of the Code of Ordinances. Each official, elected or appointed, should return to the City, upon leaving office, all documents, records and other materials pertaining to the office, including this Code of Ordinances.

(Code of Iowa, Sec. 372.13[4])

NUMBERING OF ORDINANCES AMENDING THE CODE OF ORDINANCES

It is recommended that a simple numerical sequence be used in assigning ordinance numbers to ordinances as they are passed. For example, if the ordinance adopting the Code of Ordinances is No. 163, we would suggest that the first ordinance passed changing, adding to, or deleting from the Code be assigned the number 164, the next ordinance be assigned the number 165, and so on. We advise against using the Code of Ordinances numbering system for the numbering of ordinances.

RETENTION OF AMENDING ORDINANCES

Please note that two books should be maintained: (1) the Code of Ordinances, and (2) an ordinance book. We will assist in the maintenance of the Code of Ordinances book, per the Supplement Agreement, by revising and returning appropriate pages for the Code of Ordinances book as required to accommodate ordinances amending the Code. The City Clerk is responsible for maintaining the ordinance book and must be sure that an original copy of each ordinance adopted, bearing the signatures of the Mayor and Clerk, is inserted in the ordinance book and preserved in a safe place.

SUPPLEMENT RECORD

A record of all supplements prepared for the Code of Ordinances is provided in the front of the Code. This record will indicate the number and date of the ordinances adopting the original Code and of each subsequently adopted ordinance which has been incorporated in the Code. For each supplemented ordinance, the Supplement Record will list the ordinance number, date, topic, and chapter or section number of the Code affected by the amending ordinance. A periodic review of the Supplement Record and ordinances passed will assure that all ordinances amending the Code have been incorporated therein.

DISTRIBUTION OF SUPPLEMENTS

Supplements containing revised pages for insertion in each Code will be sent to the Clerk. It is the responsibility of the Clerk to see that each person having a Code of Ordinances receives each supplement so that each Code may be properly updated to reflect action of the Council in amending the Code.

AMENDING THE CODE OF ORDINANCES

The Code of Ordinances contains most of the laws of the City as of the date of its adoption and is continually subject to amendment to reflect changing policies of the Council, mandates of the State, or decisions of the Courts. Amendments to the Code of Ordinances can only be accomplished by the adoption of an ordinance.

(Code of Iowa, Sec. 380.2)

The following forms of ordinances are recommended for making amendments to the Code of Ordinances:
